

Hedge Fund Investor Directory Packages

To help eliminate confusion over the packages of databases we now offer at Hedge Fund Investor Directory.com this one page PDF explanation was created.

What is the Institutional Investment Consultant Database?

Our firm provides an in-depth database of Institutional Investment Consulting firms which help manage the investment portfolios of the largest institutional investors such as pension funds, endowments, family offices, and foundations. This resource is provided in Excel-form, consists of 265 entries and was created for those who want to raise capital from, network with or provide services to these consultants.

What is Endowment Database?

This database consists of 924 large and unique endowment fund listings, providing full contact details with each listing in Excel format. The Endowment Fund database was created for fund managers, investment bankers, and consultants who wish to work directly with or seek capital from endowment funds.

What is Wealth Management Database?

This database consists of the 750 large wealth management firms, providing full contact details with each listing in Excel format. The Wealth Management database was created for fund managers, investment bankers, and consultants who wish to work directly with or seek capital from these wealth management firms.

What is Family Offices Database?

This database consists of 700 single and multi-family offices, which are essentially wealth management firms for the ultra-affluent. This database is offered in Excel format and was created for hedge fund and private equity fund managers, investment bankers, consultants, and service providers who want to connect directly with these firms.

What is Pension Fund Database

This database consists of 350 of the largest pension funds in the United States and Europe. This database is offered in Excel format and was created for hedge fund and private equity fund managers, investment bankers, consultants, and service providers who want to connect directly with these firms.

How much do these two databases costs to purchase separately?

\$650-\$995 each
